(The detailed report is attached to the original order and a copy filed in the accounting records of the State Highway Department.)

Regulations

(Item 1-A) The Commissioner directed that the following Departmental Instructions re: procedure for the final determination of design and location of State Highway routes in conformity with the Revised Statutes of New Jersey be officially adopted and made a part of the minutes of this meeting:

The following procedural steps shall be followed in this order:

1. Upon the recommendation of the State Highway Engineer, with the approval of the State Highway Commissioner, the Division of Survey and Plans will conduct a reconnaissance survey of a proposed legislated route and submit a preliminary report with not less than two alternate routes, together with a preliminary estimate of right of way costs by the Real Estate Division.

2. This reconnaissance study and plans will then be submitted to a Committee of Review for a preliminary study and determination as to the best alignment.

3. The State Highway Engineer shall then recommend to the State Highway Commissioner that the Division of Survey and Plans and the Real Estate Division are ready for a public hearing on the selected alignment.

4. The State Highway Commissioner shall then hold a public hearing on the alignment at the State Highway Department or in the Court House of the County in which the proposed highway is to be built in the event there is a request for such public hearing, or it is deemed in the public interest that such a hearing

should be held, after giving proper notice to all interested public officials. A stenographic record of this hearing shall be made.

5. If an agreement is reached by the department, with the local governing bodies or civic bodies, a resolution embodying agreement on the proposed alignment will be required to be filed in the State Highway Department. In the event that such an agreement cannot be reached, the State Highway Commissioner shall exercise his authority, under the Law, and adopt the alignment which, in his judgement, most nearly meets with the requirements of the State Highway Department and the interests of the local governing bodies.

6. Following the completion of the above steps the State Highway Commissioner, upon recommendation of the State Highway Engineer, will direct the completion of final plans for the alignment so approved.

7. At least twice during the course of the preparation of these plans the Committee of Review shall go over them with the Survey and Plans Division. Upon the final completion of these plans the Committee of Review shall signify their approval by initialing the original plan.

8. Upon completion of this review and approval and final agreement within the department, the State Highway Commissioner shall, at a formal stated meeting, adopt the proposed alignment and plans.

9. Thereafter the Real Estate Division will be authorized to acquire the necessary right of way in accordance with the adopted line and approved plans.

NOTE: - THE REVISED STATUTES

The Revised Statutes provide that the State Legislature shall determine the general location of routes on the State Highway System. In the case of parkways and freeways, the State Highway Commissioner recommends the routes for parkways and freeways and the Legislature makes the final designation.

Respectfully submitted,

A. Lee Grover,

Secretary.

The Commissioner authorized an agreement with the said Triumph Realty Company for this property in an amount not exceeding $15,000.00 and the setting up of the sum of $15,000.00 for such acquisition. It was further directed that in the event an amicable agreement cannot be reached that condemnation proceedings be instituted.

Signals - Traffic

(Item 58) The Commissioner approved and determined to execute an agreement with the City of Burlington, covering the revamping of the traffic signal installation at the intersection of State Highway Route 25 and High Street, as authorized at the stated meeting held May 5, 1944.

Lighting - State Highways

(Item 59) The Commissioner authorized the installation of one 4000 lumen lighting unit at the Grade Separation on Route 25 about ten feet south of the Newark Viaduct on the west side of the highway; it being understood that the construction cost will be approximately $130.00, and that the unit will be billed at the rate of $35.00 per year.

Lighting - State Highway

(Item 60) The Commissioner authorized negotiations with Warren County to reimburse them for twenty-one 250 candle power, forty 400 candle power, and two 500 candle power lighting units to be maintained at various intersections; it being understood there will be no construction cost involved and that the total cost of the units will be $1,997.20 per year, of which the State's share will be fifty percent or $998.60. The Commissioner further determined that a reimbursement agreement on this basis, after execution by the county and approval by the Attorney General, will be signed by him.

Lighting - Bridges

(Item 61) The Commissioner authorized completion of the lighting installation on the approach spans of the Berry's Creek Bridge on Route S-3 after the completion of the bridge; it being understood that the cost of same will be approximately $1,890.00.

Lighting - Plaza
George Washington Bridge

(Item 62) The Commissioner authorized the installation of electric service for lighting the bus shelter to be erected for eastbound traffic on the George Washington Bridge Plaza under an agreement between the Port of New York Authority and the State of New Jersey; it being understood that the cost of such installation will be approximately $330.00.

Lighting - Highways

(Item 63) The Commissioner authorized the negotiating of renewal agreement permitting this Department to grant reimbursement to Gloucester County in the 1945 program for highway safety lighting units as listed below, and determined that such agreements, after execution by the County of Gloucester and upon approval by the Attorney General, will be signed by him:

County	Route No.	No.C.P.	Amount

Repairs - Somerset County

(Item 66) The Commissioner directed that approval of awards of contracts as made by Somerset County for bituminous concrete and crushed stone be withheld, inasmuch as it appears that the desired competition was not present in this bidding which is a cause for rejection in accordance with Article 1.2.9 (b) of the standard specifications "if completion has obviously been suppressed".

Township & Borough Aid - Hudson County

(Item 67) The Commissioner approved the award of contract for improvement of 79th Street, North Bergen Township, Hudson County, township and borough aid, to the low bidder, New Jersey Asphalt & Paving Company on their lump sum bid of $29,532.50 for 3" sheet asphalt. Approval was also given to returning $28,750.00 from the Special State Aid Road Fund Account to the State Highway Fund, and transferring same from Granton Avenue to 79th Street.

(Item 68) The Commissioner approved the award of contract for improvement of Grand Avenue, North Bergen Township, Hudson County, township and borough aid, to the low bidder, New Jersey Asphalt & Paving Company on their lump sum bid of $30,470.00 for 3" sheet asphalt. Approval was also given to returning $30,000.00 from the Special State Aid Road Fund Account to the State Highway Fund, and transferring same from Granton Avenue to Grand Avenue.

Township & Borough Aid - Mercer County

(Item 70) The Commissioner approved of inserting an item of Asphalt OA-4 at ten cents per gallon, furnished, delivered and applied in the previously approved price agreement for 1945 township and borough aid maintenance, Ewing Township, Mercer County.

Brigantine Bridge

Taking over

(Item 71) The Commissioner made the following Order, taking over the Brigantine Bridge between Atlantic City and Brigantine City, as a part of the State Highway System:

> WHEREAS, by Chapter 1 of the Laws of 1945, there is described the route beginning at the intersection of the Absecon Boulevard and the Brigantine Boulevard in the City of Atlantic City, New Jersey; thence in and along said Brigantine Boulevard across Beach Thoroughfare or Inlet Channel to the City of Brigantine, and
>
> WHEREAS, the War Production Board has authorized and approved of the rebuilding or reconstruction of the bridge which forms a part of the route above described,
>
> IT IS HEREBY ORDERED, that the bridge across Beach Thoroughfare or Inlet Channel beginning at the existing bulkhead at the westerly or Atlantic City end of the bridge and extending a distance of 1,328.55 feet to the existing easterly bulkhead of the bridge, be and the same is hereby taken over as a part of the State Highway System of the State of New Jersey.

Orders

(Item 72) The Commissioner ratified the following orders as issued by him since the last stated meeting:

It is further understood that the county will submit a force account price agreement covering this work for approval by the Commissioner.

Lighting - State Highways

(Item 36) The Commissioner approved of including one 600 C.P. highway safety lighting unit on Route 17 in the Borough of East Rutherford in the 1945 program of reimbursement at a total cost to the State of $41.00, and determined that the reimbursement agreement, after execution by the borough and upon approval by the Attorney General, will be signed by him.

(Item 37) The Commissioner approved and determined to execute a renewal agreement permitting this Department to grant aid for 1945 in the amount of $820.00 to Lawnside Borough, Camden County, for 21 - 400 C.P. highway safety lighting units to be maintained on Route 43.

(Item 38) The Commissioner gave blanket authorization for the restoration for the fiscal year ending June 30, 1946, where conditions require same of highway safety lighting units disconnected or reduced in candle power under the war emergency curtailment program; it being understood that this blanket authorization is only for the restoration of such lighting units as may be found necessary and in an amount not exceeding the number and size of units previously authorized, and within the availability of funds. It is further understood that a report will be submitted in every case

Lighting - State Highways (Ctd)

where lighting is restored for inclusion in the minutes of stated meetings, and that any negotiations involving new installations will be submitted for approval by the Commissioner in the usual manner.

(Item 39) The Commissioner authorized the re-establishing of continuous lighting on Route 43 consisting of 742 - 400 C.P. highwa safety lighting units, for the four-month summer period from May 25, to September 25, at the seasonal rate of $5.00 per lamp per month, or an annual cost of $14,840.00; and further determined that in the future this lighting be confined to this four-month summer period.

(Item 40) The Commissioner approved the recommendation of the Electrical Engineer that additional lighting units throughout the approach to the Lincoln Tunnel be placed in service, on account of the marked increase in vehicular traffic and the further anticipated increase with the opening of Route S-3, which replacement involves the sale by the State to the Public Service Electric & Gas Company of a series regulating transformer and accessories at a quoted price of $365.00. It is understood there will be a total of fifty-four 4000 lumen lamps reconnected at an annual cost to the State of $1,890.00 based on the reduced rate of $35.00 per lamp per year due to State ownership of luminaires, ornamental standards and cables.

(Item 41) The Commissioner authorized the installation of four 4000 lumen lamps on Route 27, in the area from the Millstone River to the Delaware and Raritan Canal, in Middlesex County. It is understood there will be no construction cost involved and the units will be billed at the rate of $53.15 per lamp per year, or a total yearly operating cost of $212.60.

Federal Aid Highway System

(Item 42) The Commissioner approved of the New Jersey Federal Aid Highway System with proposed revisions as submitted by the Acting State Highway Engineer and as indicated on a map entitled "New Jersey State Highway Department, Federal Aid System, May 1945", and as set forth in list entitled "New Jersey Federal Aid Highway System, Revised May 1945 showing Federal Aid Route, Control Point Description and Length", and as further set forth in a "Detailed Description of New Jersey Federal Aid Highway System, May 1945", which lists have been filed in the office of the State Highway Department. The Commissioner further directed that the map and lists be formally presented to the United States Public Roads Administration for approval.

Township & Borough Aid - Middlesex County

(Item 43) The Commissioner approved award of contract for the mixed-in-place bituminous surface treatment of Cranbury Station Road, Cranbury Township, Middlesex County, to the low bidder, Perelli Company, for the lump sum of $6,746.25 using asphalt and broken stone. The Commissioner further approved of returning $672.06 from the Special State Aid Road Fund Account to the State Highway Fund, and transferring same from the Cranbury-Wyckoffs Mills Road to the Cranbury Station Road (surface treatment).

Township & Borough Aid - Hudson County

(Item 44) The Commissioner approved award of contract for the improvement of Park Avenue, Guttenberg Town, Hudson County, township and borough aid, to the low bidder, Clinton Asphalt Company on their lump sum bid of $15,345.06 for sheet asphalt surface. The Commissioner also approved of returning $14,750.00 from the Special State Aid Road Fund Account to the State Highway Fund for this work.

Prequalification of Bidders

(Item 1-A) The Commissioner approved revised "Regulations covering the Classification of Prospective Bidders issued in accordance with Title 52*35, Revised Statutes of New Jersey,1937 'All persons proposing to bid on State Highway work must furnish* * * '", and directed that the same be advertised in accordance with the provisions of the statute. (A copy of the revised regulations as adopted and advertised has been marked for identification and filed with the records in the State Highway Department).

(Item 2-A) In regard to the matter of prequalification of bidders, Counsel advised the State Highway Commissioner that bidding on State Highway work as a joint venture cannot be undertaken by two bidders unless each of the parties is qualified individually in an amount sufficient to permit the award individually of contract for the entire project, and that the joint submission of prequalification statements or questionnaires is not necessary when each of the bidders is individually qualified. The Commissioner advised that our procedure will accordingly be based on this advice of Counsel.

Respectfully submitted,

A. Lee Grover,

Secretary.

MINUTES OF MEETING - DECEMBER 5, 1945

The eighty-sixth stated meeting was held by State Highway Commissioner Spencer Miller, Jr., on Wednesday, December 5, 1945 at 11:30 A.M., with the following staff members present:

(Item 18) The Commissioner directed that a record be made in the minutes of this meeting that the two (2) 400 candle power units at the intersection of Route 6 (old) and Route 6 (new) in Parsippany-Troy Hills Township, have been restored to their pre-war status in

Lighting - State Highways

the 100% State lighting program, in accordance with the blanket authorization given on June 20, 1945; it being understood there is no construction cost involved and that the units will be billed at the Jersey Central Power and Light Company's rate of $54.60 per unit per year or a total of $109.20 per year.

(Item 19) The Commissioner authorized the Electrical Division to arrange for two additional 400 candle power units under the 1946 one hundred percent State lighting program on Route 35, north of Main Street, in Woodbridge Township; it being understood there will be no construction cost involved and that the units will be billed at the Public Service Electric & Gas Company's rate of $53.15 per unit per year, or a total of $106.30 per year.

(Item 20) The Commissioner authorized the installation of eleven (11) 400 candle power units on Route 25 in the Township of Delran, Burlington County. It is understood there will be no construction cost involved and that the units will be billed at the Public Service Electric & Gas Company's rate of $53.15 per unit per year, or a total of $584.65 per year.

(Item 21) The Commissioner withheld action at this time on the recommendation that the State assume responsibility for lighting on Route S-3, Rutherford Avenue, from the Passaic River-East to Meadow Lane, and directed that same be referred back to the Electrical Division for further report.

(Item 22) The Commissioner authorized the installation of two (2) 4000 lumen highway lighting units at the railroad crossing on Route 31 at the Belle Mead A.S.F. Depot, with the understanding that such installation is to be temporary only. It is further understood that there will be no construction cost involved and that the annual cost to the State will be $106.30.

(Item 23) The Commissioner authorized the installation of six (6) 4000 lumen lamps on Route 23 at the Boonton Road and Delaware, Lackawanna & Western Railroad Overpass, in Wayne Township. It is understood that the construction cost will amount to $830.00 and that the annual operating cost will be $282.60.

(Item 24) The Commissioner authorized the Electrical Division to negotiate a reimbursement agreement with the Township of Woodbridge covering five (5) 400 candle power lighting units on Route 35 south of Main Street. It is understood there will be no construction cost involved and that the units will be billed at the Public Service Electric and Gas Company's rate of $41.00 per unit per year, or a total of $205.00 yearly. The Commissioner further determined that such a reimbursement agreement, when executed by Woodbridge Township and approved by the Attorney General, will be executed by the Highway Department.

Signals - Traffic

(Item 25) The Commissioner authorized the installation of a traffic signal of the flasher type at the intersection of Route 25 and the Riverside-Moorestown Road, Bridgeboro as approved by the Traffic Engineer of the Motor Vehicle Department. It is understood that the construction cost will be approximately $1,850.00, the annual maintenance approximately $60.00, and the annual cost for current approximately $75.00.

(Item 26) The Commissioner authorized the installation of a traffic signal at the intersection of Route 34 and Asbury Avenue at the entrances to the Naval Ammunition Depot, Camp Earle, as approved by the Motor Vehicle Department. It is understood that the installation cost will be approximately $4,150.00, the annual maintenance approximately $100.00, and that the cost of current for operation will be paid by the Navy Department.

Signals - Traffic

(Item 27) The Commissioner authorized the Electrical Division to negotiate an agreement with Woodbridge Township covering the installation of a traffic signal at the intersection of Route 4 and Avenel Street, as requested by the Chief of Police of Woodbridge Township and approved by the Motor Vehicle Department. It is understood that the estimated cost of the installation is $3,850.00, of which the State's share will be $2,888.00 and the Township's share $962.00. The annual cost of maintenance to the State will be approximately $100.00 and the cost of current for operation will be borne by the township. The Commissioner further determined that an agreement on this basis when executed by the Township and approved by the Attorney General will be executed by the Highway Department.

(Item 28) The Commissioner authorized the Electrical Division to negotiate an agreement with the Borough of Shrewsbury covering the installation of a traffic signal to supplant the existing inadequate signal at the intersection of Route 35 and Sycamore Avenue, as requested by the Borough and approved by the Motor Vehicle Department. It is understood that the estimated cost of the installation is $3,800.00, of which the State's share will be $2,850.00 and the Borough's share $950.00. The annual maintenance cost to the State will be approximately $150.00 and the cost of current for operation will be borne by the borough. The Commissioner further determined that an agreement on this basis when executed by the Borough and approved by the Attorney General will be executed by the Highway Department.

(Item 29) The Commissioner authorized the Electrical Division to complete an agreement with the Boroughs of Sea Girt and Manasquan covering the installation of a vehicular operated traffic signal of the State approved type in place of the existing signal which is inadequate at the intersection of Route 4N and Sea Girt Avenue, which installation has been approved by the Motor Vehicle Department. It is understood that the estimated cost of the installation is $3,100.00, of which the State's share will be $2,400.00, and the Boroughs' share $350.00 each. The annual maintenance cost to the State will be approximately $150.00, and the cost of current for operation will be borne by the two boroughs. The Commissioner further determined that an agreement on this basis when executed by the two boroughs and approved by the Attorney General will be executed by the Highway Department.

(Item 30) The Commissioner authorized the Electrical Division to negotiate an agreement with the Township of East Hanover covering the installation of a traffic signal at the intersection of Route 10 and River Road. It is understood that the estimated cost of the installation is $3,800.00, of which the State's share will be $2,850.00 and the Township's share $950.00. The annual maintenance cost to the State will be approximately $200.00, and the cost of the current for operation will be borne by the Township. The Commissioner further determined that an agreement on this basis when executed by the Township and approved by the Attorney General will be executed by the Highway Department.

Lighting - State Highways

(Item 31) The Commissioner authorized the Electrical Division to negotiate reimbursement agreements under the 1946 highway lighting reimbursement program for safety lighting with the following municipalities at an annual cost to the State as listed, and determined that such reimbursement agreements when executed by the municipalities and approved by the Attorney General will be executed by the Highway Department:

Following a discussion, the Commissioner advised that he would make a determination shortly as to who would be delegated to attend these conventions.

Route 35, Cheesequake Creek Bridge

(Item 2-A) The subject of the monies withheld on the contract of the Fehlhaber Pile Company for construction of the Cheesequake Creek Bridge, Route 35, to cover claims which have been filed was discussed; Mr. Dickinson advising that suit has been instituted against the contractor on account of these claims. Following the discussion, Commissioner Miller asked Mr. Dickinson to follow up the matter of having a settlement of thismatter made by the contractor.

Christmas Exercises

(Item 3-A) The Commissioner advised that the annual Christmas exercises and presentation of certificates of merit would be held in the Board Room at twelve o'clock Noon, on Friday, December 21st; the arrangements for same to be worked out by Mr. Reddan with Mr. Grover acting as the Master of Ceremonies.

Respectfully submitted,

A. Lee Grover,

Secretary.

Orders

(Item 58) The Commissioner ratified and confirmed the following Orders as issued by him since the last stated meeting:

Route 4N (1917), Section 10B

(January 31, 1946) Approval is hereby given to the substitution of a 2" black top surface on an 8" concrete base pavement for the 9" reinforced concrete pavement called for on Route 4N (1917), Section 10B, Norwood Avenue, Deal, as requested by the Borough of Deal for the reason that the westerly roadway of this section of highway is already paved with a black top pavement, and the further fact that reinforcing steel will not be available for some sixty or more days after termination of the steel strike which would defer the paving operations until the summer season; the said substitution being in accordance with the recommendation of C. F. Bedwell, Acting State Highway Engineer, with the understanding that it will result in a net reduction in the contract price of $405.52.

Personnel -

R. B. Gage

(Item 4-A) State Highway Commissioner Miller directed that a minute be made in the records of this stated meeting of the passing of R. B. Gage, who for more than thirty-five years was Chief of the Laboratory Division of the State Highway Department; Mr. Gage having retired from the active service of the State Highway Department January 1, 1946 and died on Friday, March 1st, following a long illness.

Commissioner Miller further directed that we record the deep sense of loss felt by all of the members of the State Highway Department on the passing of Mr. Gage and the great debt of the State of New Jersey for his pioneering services in the development of highway materials and specifications, and the improvement of methods largely used in the construction and maintenance of our highways.

Respectfully submitted,

A. Lee Grover,

Secretary.

MINUTES OF MEETING - MARCH 20, 1946

Signals - Traffic

(Item 1-A) The Commissioner authorized the Electrical Division to negotiate an agreement with the Borough of Fairlawn, covering the installation of a traffic signal at the intersectio of Route 4 and Plaza Road, it being understood that the estimated cost of the installation is $3,000.00 with an annual operating cost of $120.00. The Commissioner further determined that such an agreement will be signed by him after signature by the Borough and upon approval of the Attorney General.

Route 25, Sections 2D and 3D

(Item 2-A) The Commissioner approved a substitution in design in connection with the contract of Francis A. Canuso & Son for construction of Route 25, Sections 2D and 3D, Cooper River to Kaighn Avenue Circle, by which all reinforcing steel in the remaining pavement, together with the load transfer joints, are

Route 25, Sections 2D & 3D (Cont'd

eliminated, and a design substituted calling for so-called "Dummy Joints". It is understood that the contractors are agreeable to this substitution and will reduce their contract unit prices for concrete pavement by $1.01 per square yard because of the elimination of the steel, and will install "Dummy Joints" for $.25 per lineal foot and such cork joints as may be required at $.57 per lineal foot, thereby effecting a net reduction of about $25,900.00 in the amount of the contract.

Route 25, Sections 32A and 16C

(Item 3-A) The Commissioner approved plans and specificatio for construction of the following projects on Route 25, Sections 32A and 16C, Federal Aid Project SN-FAP, SN-FAI, SN-A-FAP 115 (8), and authorized the placing of advertisements for bids on same; the said projects having been approved by the District Engineer of the Public Roads Administration:-

Contract No. 2, Newark Junction to Haynes Avenue
Contract No. 3, Haynes Avenue to Carnegie Avenue
Contract No. 4, Carnegie Avenue to North Avenue

(Item 4-A) The Commissioner approved plans and specifications and authorized the placing of advertisements for bids for the construction of Route 25, Section 32A, Contract No. 1, Port Street to Newark Junction.

(Item 4-A) The Commissioner approved plans for the demolition of buildings formerly owned by the City of Elizabeth (Alms House Buildings) located about 1,800 feet north of North Avenue on the easterly side of Route 25, City of Elizabeth, Union County, and authorized the placing of advertisements for bids on same.

Materials - Maintenance

(Item 5-A) The Commissioner directed that the Division of Purchase and Property be requested to purchase 25,000 gallons of White Traffic Paint for use of the Maintenance Division in accordance with the specifications as submitted and recommended by Mr. Muir and Mr. Baumann; the said specifications including a requirement for delivery of not less than 6,000 gallons per month during the months of June, July, and August, and completion of delivery on or before September 30, 1946, and that competitionbe limited to bidders within an area not exceeding one hundred and fifty miles from Trenton.

Respectfully submitted,

A. Lee Grover,

Secretary.

Township & Borough Aid - Monmouth County

(Item 2-A) The Commissioner received and considered a report of bids received by Avon-by-the-Sea Borough, Monmouth County, for the bituminous surface treatment of 2nd and 3rd Avenues. Following a consideration of this matter, Commissioner Miller directed that action be withheld on the matter of approval of the award of contract as made by the Borough to Fred McDowell on his lump sum bid of $3,221.96 using asphaltic oil and washed gravel, pending the obtaining of an explanation for the coincidence of this bid and the engineer's estimate being exactly the same.

Township & Borough Aid - Hudson County

(Item 3-A) The Commissioner approved the recommendation as made by the Supervisor of State Aid Projects and the State Highway Engineer that the Town of Kearny be advised that the award of contract for the grading of Pennsylvania Avenue as made to the low bidder at the second letting is not approved because of the fact that the lowest bid is $27,670.00 higher than the lowest bid submitted February 13, 1946.

Interstate Routes

(Item 4-A) The Commissioner concurred in the selection of the following three Interstate Routes in NewJersey and the tentative intergradation of same as shown on the map submitted and to be filed with the Public Roads Administration, and directed that the Public Roads Administration be advised that these routes are acceptable to this Department and recommended for promulgation.

(1) From the Geo. Washington Bridge, westerly to the Delaware River Bridge at Delaware.

(2) From the Lincoln Tunnel, westerly to Phillipsburg.

(3) From the Geo. Washington Bridge over State Highway Routes 100 and 26 to a crossing of the Delaware River at or in the vicinity of Trenton.

Respectfully submitted,
A. Lee Grover
Secretary

The Commissioner further directed that a recommendation be made to the Director of the Division of Purchase and Property that such a lease be executed.

Route 100

(Item 4-A) The Commissioner adopted the line of location for State Highway Route 100, beginning at the Port Reading Railroad (Point "B"), thence in a northerly direction through Woodbridge Township, Borough of Carteret and City of Linden to the southerly boundary line of the City of Elizabeth at Allen Street (or Meacham Avenue) adjacent to the Central Railroad of New Jersey in the vicinity of the Standard Oil Company Plant, as shown in red on map entitled "Routes 100 and S-100, Proposed Alignment between Points,B, C and D, from Port Reading Railroad to Route 25 at Elizabeth, Middlesex and Union Counties, June 3, 1946".

Respectfully submitted,

A. Lee Grover

Secretary.

MINUTES OF MEETING - JULY 24, 1946

The one hundred and second stated meeting was held by State Highway Commissioner Spencer Miller, Jr., on Wednesday, July 24, 1946, at 11:00 A.M., with the following staff members present:

E. V. Connett, Charles M. Noble, C. F. Bedwell, Edward E. Reed, A. W. Muir, John W. Aymar, Fred H. Baumann, James L. Hays, M. L. Howell, A. Lee Grover, Frank A. Reddan, Frederick Vollmer and Sackett M. Dickinson, Assistant Deputy Attorney General.

The regular schedule of Business was taken up and the Commissioner statedthat the items hereinafter listed in these minutes are approved as indicated, the same having been recommended for approval by the various Division Heads and the State Highway Engineer.

Route 25, Section 32A, Contract 2 ✓

(Item 1) The Commissioner approved of reimbursing Public Service Electric & Gas Company for the actual cost of relocating approximately 600 feet of 8 inch cast iron, high pressure, gas main that is now located at the Haynes Avenue Overpass on Route 25, Section 32A, Contract 2, to a location north of Haynes Avenue outside of the ramp connecting Haynes Avenue with Route 25, the estimated cost of this work being $2,748.00.

(Item 2) The Commissioner approved of the New Jersey Bell Telephone Company being reimbursed for the cost of replacing their overhead line construction for the service feeding of the Newark Office Building with underground construction at and across the circle and Route 25, Section 32A, Contract 2; the estimated cost of the work being $3,150.00 and the same being particularly desirable because of the height of the poles which would have to be used across and around the circle for aerial construction.

(July 24, 1946) Supplementing Order of January 30, 1945. In accordance with the provisions of Chapter 65 of the Laws of 1944 as outlined by Dr. William S. Carpenter, President of Civil Service Commission, in regard to the reclassification of the classified personnel of the State Highway Department.

Approval is hereby given to the reclassification and change in salary range of State Highway Department employees as listed in forty-two (42) schedules submitted to this Department by Dr. William S. Carpenter from February 13, 1945 to July 17, 1946 inclusive.

It is further Ordered that CS-21 forms prepared and submitted to the Civil Service Commission covering adjustments for employees of the State Highway Department who have been reallocated and who require additions to their rates of pay in order to bring them to the minimum of the range to which they have been assigned and in accordance with above mentioned schedules, be approved.

Regulations - Expenses

(July 30, 1946) Effective as of July 1, 1946.

Employees who travel on the State's business or who live away from point of permanent assigned at the State's convenience will be reimbursed for their expenses. Such reimbursement is in no way to be construed as extra compensation for services performed.

In view of the present abnormal conditions and the necessity for every possible economy, employees who travel or live away from point of permanent assignment at the State's convenience will arrange for their necessary expenses with their Division Heads in advance. The amounts allowed by the Division Heads will be subject to approval by the Expense Account Committee, appointed by the Commissioner, and in no event will exceed $4.00 per day, including lodging, for periods exceeding one week. For periods of less than one week not to exceed $5.00 per day may be allowed. In no case will the mid-day meal be allowed.

As costs of living vary greatly in various parts of the State, no fixed rates will be prescribed, it being the object of the Order to reimburse the employee for only his necessary requirements on any particular trip or assignment.

Reimbursement for use of privately owned cars on the State's business will be at the rate of 5¢ per mile.

Regulations - Expenses (Contd.)

Where the service of a personally owned car is required to carry out the work of an assignment it shall be allowed as rent of equipment and not travel expense.

NOTE: Expense accounts shall be submitted by the fifth of the month following the month in which they were incurred.

The above approval was made to include the staff instructions.

Township & Borough Aid - Hunterdon County

(Item 1-A) The Commissioner approved award of contract for construction of Cokesbury-Califon Road, Section 2, Tewksbury-Califon Road, Section 2, Tewksbury Township, Hunterdon County, Township and Borough Aid, to E. L. and A. G. Preen, on theirs the lowest bid submitted in the sum of $23,319.47. The Commissioner further approved of withdrawing $19,000.00 from the Special State Aid Road Fund Account for this work, and transferring $3,000.00 (1945 funds) from the Oldwick-Pottersville Road to the Cokesbury-Califon Road, Section 2.

Township & Borough Aid - Monmouth County

(Item 2-A) The Commissioner approved the request of Shrewsbury Township, Monmouth County, to do the work on Water Street, Township and Borough Aid, by force account and contract bid prices, and also approved the revised force account price agreement covering this work; the rates having been revised following the withholding of approval by Commissioner Miller because of the high rates of pay listed for labor in the original presentation.

Agreements - Utilities

(Item 3-A) The Commissioner gave consideration to the suggestions and recommendations made by State Highway Engineer Noble relative to the subject of agreements with and reimbursement required to be made to utility companies for the revamping or moving of their facilities when located within a State Highway Construction project. Following the discussion, Commissioner Miller appointed a committee to study these subjects and directed that a report be made to the State Highway Engineer with recommendations for an agreement, the basis of reimbursement, and an outline of procedure in such cases; the said report to be later presented to the Commissioner with the recommendation of the State Highway Engineer. The following were appointed by the Commissioner to comprise this committee:

C. F. Bedwell, Construction Engineer
Sackett M. Dickinson, Asst. Deputy Attorney General
Alex. W. Muir, Superintendent of Maintenance
Cyril Wimpenny, Office Engineer.

Agreements - General

(Item 4-A) The Commissioner gave consideration to and indicated that he is favorable to the recommendation of State Highway Engineer Noble that a Bureau be established under the Construction Division whose particular duty would be to effectuate arrangements with counties and municipalities, relative to maintenance of drainage systems or other structures that may be contemplated in connection with State Highway projects, and the limitations of jurisdiction applying thereto. Commissioner Miller further requested that the State Highway Engineer submit a recommendation as to the personnel to constitute such a Bureau, together with a detailed outline of the powers and duties proposed to be vested in such a Bureau.

Respectfully submitted,

A. Lee Grover,

Secretary.

Committee on Sidewalks

(September 23, 1946) In accordance with the recommendation of State Highway Engineer Noble, there is hereby created a committee for study of the problem of sidewalk construction on the State Highway System, to consist of the following members of the State Highway Department:

E. W. Kilpatrick, Chairman
H. W. Giffin
A. W. Muir

The following officers of other State Departments being invited to serve as members of the above mentioned committee:

Col. Charles Schoeffel, Supt. of State Police
Arnold H. Vey, Traffic Engineer, Motor Vehicle Dept.
S. M. Dickinson, Department of Law

This committee is appointed for the purpose of making a determination (1) as to a policy for providing sidewalk space; and (2) a policy for the paving of sidewalk space. In this determination, two categories of service shall be considered, namely, Urban and Rural.

The committee is further charged with making a determination as to whether or not from a safety standpoint, paved sidewalks are desirable immediately adjacent to high speed highways; also as to whether additional right of way should be purchased beyond the limits of the highway to provide sidewalk space, and whether the State Highway Department has the necessary legislative authority so to do.

It is further directed that the findings and recommendations of this committee shall be submitted through the State Highway Engineer to the State Highway Commissioner.
